## Experience

**Web Developer Intern at Kites Software** (*HTML, CSS, JavaScript*)  
May 2024 – July 2024

- Developed and maintained the company website.
- Collaborated with UI/UX team to improve user experience.
- Implemented responsive design for various devices.

## Projects/Works

**Vehicle Service**  
(*HTML, CSS, JavaScript, PHP, MYSQL*)

- The Vehicle Service Management System empowers the admin to manage activities within a vehicle service station and also allows users to explore a variety of options for their vehicles.
- Users can access features like Engine Checkup , Engine Tuneup , Tire Replacement, Oil Change, and more.
- The website is built using JavaScript, HTML, and CSS for the frontend, PHP for backend, and MySQL for database management.
- Deployed the app using GitHub Pages.
- [github.com/sachuiscool/Vehicle service](https://github.com/sachuiscool/Vehicle%20service)

**Smart Admission Portal With AI Counsellor**  
(*HTML, CSS, JavaScript, PHP, MYSQL, RASA(AI Chatbot)*)

- Developed a complete online portal to manage college admissions.
- Integrated an AI-based chatbot (Rasa) to guide students with admission-related queries.
- Built Student and Admin modules with secure login and session handling.
- Users can apply for courses, track application status, and get chatbot support.
- Admins can review applications, manage course details, and view student data.
- Created and connected a MySQL database to store user and application information.Ensured user-friendly and easy-to-use UI with proper validations.
- [github.com/sachuiscool/SAP With AI Counsellor](https://github.com/sachuiscool/SAP%20With%20AI%20Counsellor)
